**REASONS FOR ALLOWANCE**

1. Claims 8, 9, and 12-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claim 8 recites a painted metal sheet having a surface treated with a chemical agent containing at least one fluoroacid and wherein the treated surface is coated with a paint layer, which comprises a base resin and dispersed therein particles of a chromium-free corrosion inhibitor prepared from porous silica particles to which Ca ion is bonded by ion-exchange and a polyphosphate and wherein the paint layer is positioned on the treated surface of the metal sheet without the interposition of a chromium containing layer.

The closest prior art, Yoshimi et al., US 6,562,474, specifically teach away from the use of any fluoroacid in their painted metal sheet and specifically state in Col. 23, lines 22-26 that "fluoride such as hexafluoro silicic acid is strongly corrosive" and "that kind of compound should be avoided".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
